CONTINUE THE ETHIC THAT THE COUNTY REMAINS A QUINTESSENTIAL RURAL COMMUNITY WITH THE OVERALL CHARACTER OF THE COUNTY PRESERVED AS:

- A great place to live
- A good place to work
- A good neighbor for the Bay and other Eastern Shore counties
- A community that protects the expectations and opportunities of all its citizens
- A County that supports the highest quality of education
SUSTAIN THE COUNTY:

- As a predominantly agricultural community
- As good stewards preserving and protecting the Chesapeake Bay and its tributaries
- By reducing the growth in the number of new dwelling units in agricultural and rural areas
- By improving the overall quality of housing stock
- By addressing the relative lack of affordable housing
- By providing adequate public services through aspects of community planning addressing land use, transportation, infrastructure, and community design
- By encouraging and directing growth to existing communities and within designated planning areas
THE VISION FOR THE CHESTER/STEVENSVILLE Planning Area is to provide that families of all income levels are able to obtain secure affordable housing, maintain decent employment, have useful and safe transportation modes, select from a variety of community parks, recreation, and educational opportunities, and maintain the environmental health of their neighborhoods.
THE PLAN’S INTENT IS TO PUT FORTH A strategy for responsible growth that recognizes the character of the area and the needs of its citizens, now and in the future. Its underlying premise is that with forward thinking and community involvement, the quality of life for Grasonville’s citizens can be enhanced while accommodating the area’s growth and development.
THE SHARED COMMUNITY VISION HOPES TO establish Kent Narrows as a year-round destination for visitors and local residents while highlighting the heritage of the traditional working waterfront character.

Question One

How has the county changed since then or what is different now?
DISCUSSION

QUESTION TWO

WHAT ARE YOUR TOP PRIORITIES OR AREAS OF CONCERN THAT YOU HOPE TO SEE ADDRESSED IN THE COMPREHENSIVE PLAN UPDATE?
SWOT ANALYSIS

A simple but useful framework for analyzing the County’s strengths, weaknesses, opportunities, and threats.

It helps build on what the County does well, address what it’s lacking, minimize its risks, and take the greatest possible advantage of chances for success.

**STRENGTHS**

Internal elements that give the County an edge or competitive advantage.

These can be unique assets, skills, or resources that the County can use to its benefit.

**WEAKNESSES**

Internal elements that hinder the County’s ability to reach optimal performance and prevents the County from reaching its goals.

The ultimate goal is to make improvements to these.

**OPPORTUNITIES**

External circumstances and potential situations that can be used or exploited to benefit the County.

They are beyond the County’s control, but the County can make the most of them.

**THREATS**

External circumstances that pose a threat to the County’s current or future ability to achieve what it wants to.

These potentially damaging effects should be mitigated or avoided.
